

ClinSpec Solutions, LLC and PICC Excellence, Inc. Announce Strategic Partnership to Transform Vascular Access Education with XR Technologies

Collaboration brings together PICC Excellence's 30 years of training leadership and ClinSpec's innovative XR Virtual Reality solutions to revolutionize clinician education and improve clinical competencies

Hartwell, Georgia — September 16, 2025— ClinSpec Solutions, LLC and PICC Excellence, Inc. today announced a strategic partnership to advance vascular access education through the integration of Extended Reality (XR) technologies. This collaboration unites PICC Excellence's three decades of global leadership in vascular access training with ClinSpec Solutions' innovative approach to immersive education, established in 2023.

The partnership will harness XR technologies — including virtual, augmented, and mixed reality — to create dynamic, interactive learning environments that mirror real-world challenges while maintaining the safety of a simulated experience, said Matthew Ostroff, MSN, APN, VA-BC, President and Chief Clinical Officer of ClinSpec Solutions. “Clinicians will be able to engage in highly realistic training that enhances their competency, builds confidence, and improves patient safety with vascular access insertions.”

“Our mission at PICC Excellence has always been to deliver evidence-based education that empowers clinicians and safeguards patients,” said **Nancy Moureau, PhD, RN, CRNI, CPUI, VA-BC, CEO of PICC Excellence, Inc.** “Through this collaboration with ClinSpec Solutions, we are bringing vascular access education into a new era, using XR to expand access, engagement, and effectiveness.”

Founded in 1994, PICC Excellence has trained tens of thousands of clinicians worldwide through its catalog of more than 100 online courses and multiple certification pathways. By combining these resources with ClinSpec Solutions' cutting-edge XR platforms, the partnership will create immersive mastery-learning programs that strengthen standards of practice, reduce complications, and improve outcomes for patients.

“ClinSpec Solutions was created to push the boundaries of clinical education,” said **Dagoberto Salinas, MSN, ACCNS-AG, CNOR, VA-BC, ClinSpec Solutions, LLC - CEO/Founder.** “By integrating XR into vascular access training, we are not only enhancing the way clinicians learn, but also helping to set a new global standard for excellence in patient care.”

The collaboration will begin rolling out new XR-enhanced training bundles and credentialing opportunities in 2025, expanding access to high-quality vascular access education for healthcare systems worldwide.

About PICC Excellence, Inc.

Founded in 1994, PICC Excellence, Inc. is a global leader in vascular access education. With a mission to improve patient safety through evidence-based training and competency validation, PICC Excellence offers 100+ courses, certifications, and online programs that serve clinicians and healthcare systems in more than 30 countries.
